**Lab-06 INSTALLATION OF XAMPP AND**

**DVWA**

---

## Step 1: Install XAMPP

1. Download XAMPP from <https://www.apachefriends.org/index.html>
2. Run the downloaded installer.
3. Follow the installation steps and select Apache, MySQL, PHP, and phpMyAdmin.
4. Open the XAMPP Control Panel and start Apache and MySQL services.
5. Open a browser and go to <http://localhost/> to verify XAMPP is running.

---

## Step 2: Install DVWA

1. Download DVWA from <https://github.com/digininja/DVWA> (Download ZIP or clone repo).
2. Extract DVWA into the XAMPP htdocs folder (e.g., C:\xampp\htdocs\dvwa).
3. Open phpMyAdmin at <http://localhost/phpmyadmin>.
4. Create a new database named dvwa.
5. In the DVWA folder, rename config/config.inc.php.dist to config/config.inc.php.
6. Edit config.inc.php and set:

```
o $_DVWA[ 'db_user' ] = 'root';
```

- o `$_DVWA[ 'db_password' ] = '';`

7. Open <http://localhost/dvwa/setup.php> and click Create / Reset Database.

8. After success, go to <http://localhost/dvwa/login.php> and login with:

- o Username: admin

- o Password: password

---

That's it! XAMPP and DVWA should now be installed and ready to use.
